

REMEMBERING THE SREBRENICA GENOCIDE

SREBRENICA

Don't forget

11.07.1995

8372 ...

We Bosnians want to rebuild a unified Bosnian society and a modern European state of Bosnia and Herzegovina, similar to what the Swiss have successfully done.

However, war criminals and Serb ethnic nationalists wanted to prevent this with the help of neighboring countries in the past with war.

They wanted to exterminate Bosniaks and destroy and divide Bosnia!

Years of genocide in Bosnia culminated in Srebrenica, with the murder of at least 8,372 people in just a few days.

Betrayed by the UN and forgotten by the world.

A total of 100,000 war victims in Bosnia!

Unfortunately, even today the ethno-nationalists in Bosnia, with the support of neighboring countries and radical European politicians, want to prevent the development of a modern, European, civil state in Bosnia and Herzegovina!

According to their radical view, ethnonationalists want:

"Ethnic divisions and a weakened state and disunited society in Bosnia."

It seems they are ready to reignite conflict in the heart of Europe for these destructive ends?

We invite open-minded and humane people to work for the civil, united and Bosnian society in the European state of Bosnia and Herzegovina – Bosnia without ethnic divisions.
